3 November 2016

Dear Igor,

This letter serves as official confirmation of a QSO between your station, RX6FJ, and VKØLD, a remotely controlled station on Heard Island (valid for DXCC credit) operating as part of the larger VKØEK DXpedition. Particulars as follows.

Your call: RX6FJ  
Date: 04-April-2016  
Time: 0340 UTC  
Band: 14 MHz  
Mode: 2xCW  
Your RST: 599

We believe this was the first ever entirely remote controlled operation from a top ten entity. There were only 43 QSOs made, and this is the only paper QSL issued to date, meaning you now hold one of the rarest QSLs in existence. Congratulations on your good fortune and operating skill, and thank you for your QSO and the QSL.

73, Mike  
KJ4Z / VKØLD
